## Conveyor Systems

### Floor conveyors

Slat Conveyors

Belt Conveyors

Wiremesh Belt conveyors

Power Roller Conveyors

Gravity Roller Conveyors

Modular Belt Conveyors

### Overhead conveyors

Four wheel conveyor

I-beam conveyor

### Material handling System Automation,

Tackle systems

Grippers for press part handling

Fixtures, Jigs

Trolleys for Assembly lines

Vegetable Dryers

Conveyorised Vegetable Dryers

Industrial Dryer Systems

Under takes Project works Pipeline projects, Conveyor projects, installation / Modification and Industrial fabrications

**Office:** Shubhashri, E-1, Flat no-407, Jai Ganesh vision Akurdi 411035

Works:- Gat No.164 A, Shop NO.6 &7, Near Bansal Cement Triveni Nagar Talwade Pune

# FOUR WHEEL CHAIN CONVEYOR

A widely used overhead conveyor designed for load up to 55 kg | 110 kg with load bar

Tracks and turns are made up of formed angles 38x38x3 thk. & also standard 40x40x5 thk . track brackets at every 625mm  
Chain: Chain is made up of En-8 links and En-8 axles  
The chain is available in . 6",8",10",12" pitch. minimum component hooking pitch is double  
, Drive Unit:Sprocket type/caterpillar type is available, & it can used as per layout requirement Multi drive units with speed synchronization can be used for longer conveyor loops

## **FEATURES:-**

- **Cost Effective.**
- **Strong & Modular**
- **Design for Minimum Maintenance**
- **Can be used as overhead as well as floor conveyor**

# **I-BEAM /MONORAIL CONVEYOR SYSTEM**

TYPE	CHAIN SIZE	CAPACITY
X348	3"	90Kgs
X458	5"	200Kgs.
X678	6"	545Kgs.

## APPLICATION

- **Material Transfer . Plastic, Steel Parts**
- **Painting Lines .**
- **Storage & Delivery Lines , Assembly Lines**

## **FEATURES:-**

- **Strong & Modular**
- **Design for Minimum Maintenance**
- **Can be used as overhead**

# **SLAT CONVEYOR**

. This kind of conveyor is used in Assembly lines for carrying out assembly work in process primarily in scooter manufacturing, cycle manufacturing, etc. These conveyors are also further offered at a competitive price range for all our clients.

Width: up to 2 mtrs

Length:-up to 100 mtr

Unit weight :- up to 4000kg

speed 0.5 mtr/sec

## POWER ROLLER CONVEYOR GRAVITY ROLLER CONVEYOR

We offer conveyors find extensive application in the logistics industry, warehouses and packaging line for loading and unloading heavy materials. Conforming to the international standards, We have kept relatively low pricing on our products to encourage client participation.

### FEATURES:-

- ▶ most suitable for unit loads
- ▶ cost effective,
- ▶ possessing long life
- ▶ requiring low maintenance

**LENGTH: UP TO 100MTR**

**ROLLER WIDTH: AS REQUIRED**

**UNIT WEIGHT UP TO 2000KG**

**ROLLER SPEED 0.5MTR/SEC**

## BELT CONVEYOR

Our Belt Conveyor. Widely acknowledged among our valuable clients for their provided features, these conveyors can be availed at discounted Prices from us. Effective, durable and corrosion resistant our ranges of belt conveyors are fabricated using premium raw material. It can also be customized as per requirements of our clients

Width: up to 2 mtrs

Length:-up to 40 mtr

Unit weight :- up to 2000kg

## WIRE MESH CONVEYOR

### BALANCE WAVE CONVEYOR BELT

AVAILABLE IN FOLLOWING MATERIALS

High carbon steel. Galvanized 3% chromium, manganese, 304 stainless steel, 316, 314, 316l, 330, 430 stainless steel, 35-19cb, 80-20 cb, NICHROME V, inconel 600, 601, 625

Application:-

Food processing application  
(from drying to cooling)

Forging Industries

Ceramic Industries

Glass process industries

working temp:- 40 to 1000 degree

# VEGETABLE DRYER SYSTEMS

Our vegetable dehydrators are ideal for drying of vegetables, meat, potpourri, etc. The stackable shelves can be easily dismantled for loading and unloading of the food. Oven is equipped with dry air inlet and wet air exhaust. Sturdily built, these dehydrators are fitted with thermostatic temperature control up-to 100 degree. Available in different specifications with option for 12, 24, 48 and 96 trays.

CLOSED TYPE DRYER

OPEN DRYING

## GRIPPERS, TACKLE SYSTEMS AND FIXTURERS

Powerful handling with maximum flexibility is made possible by the area vacuum gripping system vacuum gripper can handle a wide range of products including: lumber, engineered wood, steel profiles, building lumber and pallets with a highly warped, rough surface

The typical applications for tackle systems include metal profiles, circuit boards, stones, sheet products car body parts, glass and ceramic parts, solar panels, non-rigid work pieces, and much more

Also we provides fixtures as per customer requirement fixtures
